

EXPLODED VIEW

This exploded view diagram illustrates the assembly of a built-in oven. The central component is the oven body (5), which includes the main cavity and internal racks. Surrounding it are various components: the front panel (4) with its handle (10) and control panel (11); the cooktop (2) with its burner assembly (9) and control knobs (13); the back panel (71) and side panels (74, 75); and the base (26) with its support legs (27). The diagram also shows the installation of the oven into a cabinet, including the mounting brackets (8, 9, 10, 11) and the necessary wiring (35, 36) and gas line (37, 38). Numerous screws (47) and other fasteners are shown for securing the assembly. The parts are numbered from 1 to 110, providing a clear reference for the assembly process.
